

PROJECT OVERVIEW

Uncloak is the world's first blockchain powered cyber threat solution putting businesses one step ahead of hackers by utilising:

- Advanced artificial intelligence to check public & hidden internet data for cyber threats.
- True blockchain 3.0, allowing verified IT security experts worldwide to collaborate in resolving cyber threat vulnerabilities and be rewarded through a fully automated system.
- Next generation cyber security vulnerability scanning system to ensure business remain compliant and aware of security issues.
- Experienced London based cyber security experts with dedicated software development teams in UK, US and Malta.
